

Atollon Innovations 2017

(week 35)

Notice: After upgrade, you may find out that some Tabs in New Finder are missing. In such case, you may easily add them back and change their sort order using **Context Settings > Layout**.

New Features

- New Finder - best tool to manage & store your company data about clients and projects has been completely rewritten

The screenshot displays the Bohemia Accounting s.r.o. software interface. On the left, a sidebar lists clients with their names, IDs, and dates. The main panel shows a search bar and a list of clients. The right panel displays a table of invoices with columns for Number, Supplier, and Customer.

Number	Supplier	Customer
INV140028	Your Organization	Bohemia
INV140013	Your Organization	Bohemia
INV130013	Super Co.	Bohemia
INV130014	Best Provider	Bohemia

- Timeline - new tool that is going to track any change that happens to contexts (clients, projects, etc.), first version track communication, we will also step-by-step add new tools

New note from meeting
New note from meeting
this is going to be huge
I like the way we store messages here

Move to context... ×

Send notification

- Communication - shared mailboxes (eg. info@company.com) now available from User's communication tool

- Finder - Only appropriate tabs now displayed for selected type of folder
- Finder - New way of setting folder types
- Finder - Now you can fully customize what tabs are displayed and what tab will be on 1st position
- General - Organization Settings added
- General - localization added to Language names
- Project - New Project Wizard - simplified, Next/Back steps removed
- Project - New Project Wizard - great improvement of adding / selecting new company, using combination of internal database, external database or manual contact entry

- Recruitment - applicant import requests (CV Inbox) does not delete temporary files, it rather archives them
- Recruitment - maximum number of hired people improved on Vacancy requirements detail
- Report - New fields for master/slave project responsible users added
- Sidebar - It is possible to set-up that the sidebar remains closed

Bug Fixes

- Communication - new e-mail notification will not interrupt New message composition
- Invoice - problem with refresh of Value authorized fixed

Revision #1
