Selection Procedures

Special project which system creates automatically when you consider applicant for open vacancy.

The functionality enables to track status of individual applicants for particular vacancies. You can check where candidate was presented and what was the result of his/her application. You can also add comments why he/she was rejected.

You can use this as well as search criterion.

Vacancies

Manage your recruitment process

1. **Create new Position / Vacancy, specify requirements**
2. *Search for suitable applicants or publish position on website*
3. *Watch applicants going through selection procedure*
4. *Place best talent*
5. *Invoice for placement*

Communicate with applicants, HR manager from vacancy and store your data in clear structure

About Vacancies

Vacancies are special projects that are used to track client's requirements for open position to be filled by appropriate applicant. Vacancies usually hold information about Applicant requirements. Once Applicants are considered for the Vacancy, they are visible in the list of considered Applicants incl. their detailed status.

When new Vacancy is created, new project in Finder for Client is established.

1. New Vacancy wizard to create the project
2. Search Vacancy by it's Name
3. Quick views on Vacancy projects
4. Filter for Vacancy status (the list is customizable in Context Settings > Projects > Vacancy > States - companies are used to add new states based on Vacancy priority - Hot, High Priority, Low Priority, etc.)
5. Users filter for responsible consultant's projects
6. Clicking on **Created** field table header you can sort Vacancies by newest to latest
7. Filter / export options (if the Export button is not visible it means it has been disabled for the user)

New Vacancy

Atollon provides you with simple wizard on creating Vacancy project. Click the New Vacancy button in Vacancies Application to create new Vacancy. After you create the Vacancy project, you may specify Applicant requirements, adjust Web promotion of the Vacancy & start searching Applicants from the database. You may add Applicants to Vacancy. In such case, new project Selection Procedure is created that (in detail) describes status of Applicant and the Vacancy.

Instead of creating new contact & company, you may select existing contact & existing company (client).

New client: adjust client details

The screenshot shows a software window titled "Creating: Vacancy (Folder information)". The window has a title bar with standard macOS window controls (red, yellow, green buttons) on the top left. The main content area is divided into two sections. The top section, titled "Folder details", contains a "Folder name:" label with a red asterisk, followed by a text input field containing "Corporate.co". Below this is a "Description:" label followed by a large, empty text area. The bottom section, titled "Client Form", contains an "Importance:" label with a dropdown menu showing "High". Below this is a "Comments:" label followed by a large, empty text area. At the bottom of the "Client Form" section is a list of "Enquired Services" with checkboxes. The services listed are: Recruitment (checked), Temporary Help (unchecked), HR Outsourcing (unchecked), Executive Search (checked), Consulting (checked), Training (unchecked), Cross Selling (unchecked), Outplacement (unchecked), and Other (unchecked). At the bottom right of the window, there are two buttons: "Back" and "Next", which are highlighted with a yellow border.

This screen is displayed just once new client is created.

New project: adjust project details

The screenshot shows a web application window with a title bar containing three colored buttons (red, yellow, green) and a title 'Creating: Vacancy (Project information)'. The main content area is titled 'Project details' and contains a form with the following fields:

- Project name:** A text input field containing 'IT Manager'.
- Reference Id:** An empty text input field.
- Folder:** A dropdown menu with '(New) Client' selected.
- Description:** A large, empty text area.

At the bottom right of the window, there are two buttons: 'Back' and 'Create'. The 'Create' button is highlighted with a yellow border.

After you press **Create** button, the new project is created.

Next steps

1. Adjust project details on 2nd tab: Vacancy details (expectations about the Applicant)
2. Search for applicants & add applicants to Vacancy
3. Track status of applicants & place the Applicant
4. Create & send invoice to Client

Vacancy Requirements

After you open Vacancy project, on Vacancy Requirements tab (usually 2nd) you may adjust information about the Vacancy & it's expectations. Based on this information you may start searching for the best applicants.
